## Hi, I'm Natachi – A Certified Nutrition & Wellness Consultant

**I help busy people regain their health, lose weight and restore their gut health so they can get back to living their life, feel energized and free! I have a realistic approach and put together simple, easy to follow nutrition plans which get results!**

Growing up, I was a skinny child and didn't eat much. During my secondary school period, my love for food, especially rice grew. I had an accident that got me bedridden for 8 weeks. I gained weight and didn't consider doing anything about it. I'm not blaming the accident; the blame is on my inactivity and unhealthy love for carbohydrate. My lack of discipline and change got me to a whopping 308lbs (140kg) in 2010.

After so much struggling with meals and exercise, I started studying and trying out various approach to healthy and finally I got it. Eating both quality and quantity food. Two years and eight months and I'm 75kg lighter. I can run, exercise with so much energy. I'm in the best shape I've ever been. Over time I've developed a healthier relationship with food. Health and fitness is now a passion and I've turned it into a business which lead to the birth of my healthy bakery & cafe in Gwarinpa, Abuja Nigeria. I have helped over 3500 people lose weight, educate them on mindful healthy eating.

### *Here are some review from clients*

*"I used the 21 tailored meal plan religiously, skipped dinner and added some exercised routine for two months and I went from 90.1kg to 79kg. It was totally worth it" .....Ugochi*

*"These 12 weeks taught me how disciplined I could be. I waited patiently for one person to notice, just when my scale refused to drop and was getting frustrated I hear it. "Bimbo you are losing weight". I almost fainted with excited. It was my dad. And that was it for me. Oh Natachi, God bless you for me, don't know how she does it but I want to say thank you for believing in me so much that it kept pushing me. So far I have loss 10.6kg." ...Bimbo*
